Tasks will include assisting in standards development and production activities to meet Architectural and Virtual Design & Construction needs under licensed architect supervision.
- » Working knowledge of building systems, architectural drawings, specifications, permitting, codes and regulations.
- » A team member who will collaborate with the consultant team and coordinate building systems.

Desired Education/Experience/Skills:

- » Bachelor degree in architecture, construction management or related field, or commensurate education/work experience.
- » 2+ years of work experience in commercial architecture or a related commercial field: interiors, structural, mechanical, carpentry, construction, etc.
- » Someone who picks up software quickly. Revit is our immediate need everything else can be picked up on the job.
- » A knowledge seeker who will ask why and research things they do not understand.
- » Works well under pressure and in a deadline-driven environment.

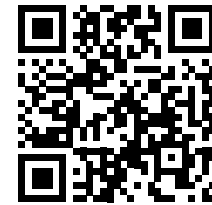

- » Excellent written and verbal communication skills.
- » A humble team member who will support others and accept support from others to meet Flint's goals.
- » The right candidate is trustworthy, a collaborative team member, and a super communicator, both internally and externally.

What we offer:

- » Active support in pursuing architectural licensure or other work-related certification (EX. we can assist in developing a study path that works for you and create on the job opportunities to gain AXP hours and critical skills).
- » Flexible work and working hours. Part-time (30 hours per week) to full-time available. A set schedule is needed that includes overlap with peers but can allow for classes or school pickup.
- » Flexible location: this is primarily an in-person position at our Roseville office; however, specific days, hours, weeks, that you want to work elsewhere is expected and anticipated. You need to have an in-office presence, but you don't need to be there every work hour.
